

PUBLIC NOTICE-2024

Village of Romeo and Romeo Industrial Park

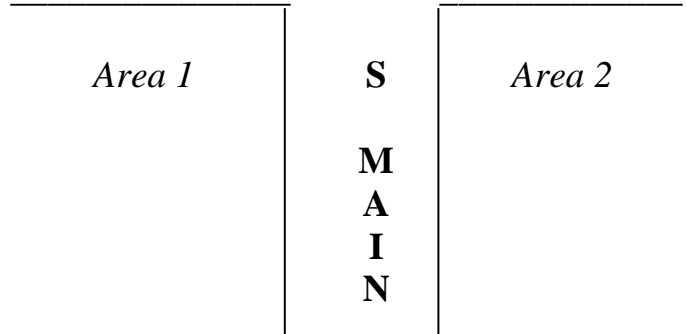

The Village of Romeo DPW will be flushing the hydrants according to the following:

September 23th and September 24th, 2024

Area 1: Any hydrants on the West side of Main Street within the village limits.

ST. CLAIR (32 MILE)

September 25th and September 26th, 2024

Area 2: Any hydrants on the East side of Main Street within the village limits

Please Note: September 25th and September 26th will include the Industrial Park

All Flushings will take place between the hours of 12:00 am (midnight) and 5:00 am (morning). Please make arrangements to have your water softener regenerate its cycles during non-flushing hours.

The flushing of the hydrants may cause discoloration of the water throughout the village for a short period of time. Please note this when washing your clothes.

If your property is outside the village limits and serviced by village water or is located within the Romeo Industrial Park, please review the schedule accordingly. Your cooperation in this matter is greatly appreciated.
